SUMMARY

Highly passionate Computer Science student pursuing a career as a full-stack developer. Intends to develop websites with generative AI and ML integrated into them. Experienced in web development, app creation, and Artificial Intelligence. Eager to apply technical skills in the workforce to maximize productivity while continuing to gain real-world knowledge in software development.

EDUCATION

The University of Texas at Dallas, Richardson, TX
***Bachelor of Science, Computer Science /* May** 2030

- **Coursework: Data Structures and Algorithms, Computer Architecture, Machine Learning, Embedded Systems**

TECHNICAL SKILLS

Programming Languages: Java, Python, C++
Libraries: PyTorch, NumPy, Pandas, TensorFlow, React Native, Oracle
Tools/ Platforms: Git, GitHub, Golang, VS Code, Figma, Eclipse, Replit

PROJECTS

Research Paper September 2026 – Present

- Initiated a research paper alongside a professor for peer review on the future of AI and its effects on the job market
- Researched companies' decisions to replace average employees performing routine tasks with AI
- Provided me with experience in how to conduct professional research, including finding credible data and evaluating sources.

Machine Learning on robots June 2025 – July 2025

- Conducted multiple tests on robots by inputting data and manipulating code on the robots to achieve desired outcomes
- Led by an AI/ML professor from the University of North Texas to educate us on their experiences while providing us with information about the future of AI
- Exposed me to numerous ways Gen AI is affecting the future of this world by providing opportunities and knowing how to utilize those chances effectively.

ORGANIZATIONS

- **AIS - Member** September 2026 – Present
- **Nebula Labs- Member** September 2026 – Present
- **AP Scholar** August 2025 - Present
- **President's Volunteer Service Award** August 2025 – Present
- **President/ Founder of Artificial Intelligence Club**

Certification or Award

- Microsoft Office 2019 September 2025 – Present
- Generative AI June 2025 - Present
